Tips:
1. Because of the mechanical property of CLEARFIL MAJESTY™ Flow, it can be used for small cavities, Class I and build-up of dentin portion of the tooth structure.
2. Since CLEARFIL MAJESTY™ Esthetic Body shades are designed for recreating Enamel and Dentin with one shade, CLEARFIL MAJESTY™ Esthetic Enamel or CLEARFIL MAJESTY™ Esthetic Translucent is needed for only a small portion of Enamel in a Multi-shade Technique.
**POSTERIOR CASES**  
*CLEARФIL MAJESTY* Posterior & Flow  
are recommended for direct posterior composite restorations.

**SINGLE-SHADE TECHNIQUE**  
- **Posterior Body (PB) shades** are recommended.  
- Using only **Flow Body (FB) shades** are available for small cavities and/or Class I.

**MULTI-SHADE TECHNIQUE**  
- Use **PB or FB** shades for the dentin area, then **Posterior Enamel (PE)** to enamel area.  
- **FB or FO** can be used as a base/liner.

---

**ANTERIOR CASES**  
*CLEARФIL MAJESTY* Esthetic  
is recommended for direct anterior composite restorations.

**SINGLE-SHADE TECHNIQUE**  
- **Esthetic Body (EB) shades** are recommended.  
- **Flow Body (FB) shades or Flow Opaque (FO)** are recommended for Class V and/or small cavities.

**MULTI-SHADE TECHNIQUE**  
- Use **EB shade with an Esthetic Opaque (EO)**.  
- **Thickness of EO shade** is approximately 1/2 of the tooth body.  
- **Apply Esthetic Translucent (ET)** or Esthetic Enamel (EE) from the incisal edge to about approximately 1/3 of the coronal length as a thin layer.
**Posterior Cases**  
*CLEARFIL MAJESTY* Posterior & Flow  
are recommended for direct posterior composite restorations.

**Single-shade Technique**  
- *Posterior Body (PB)* shades are recommended.  
- Using only *Flow Body (FB)* shades are available for small cavities and/or Class I.

**Multi-shade Technique**  
- Use *PB or FB* shades for the dentin area, then *Posterior Enamel (PE)* to enamel area.  
- *PB or FB* or *Flow Opaque (FO)* can be used as a base/liner.

**Single-shade Technique**  
(Cases smaller than 1/3 clinical crown)  
- Use primarily an *Esthetic Body (EB)* shades.  
- *Flow Body (FB)* shades or *Flow Opaque (FO)* shades are recommended for Class V and/or small cavities.

**Multi-shade Technique**  
(Cases bigger than 1/3 clinical crown)  
- Use *EB shade* with an *Esthetic Opaque (EO)* shades.  
- Thickness of *EO* shade is approximately 1/2 of the tooth body.  
- Apply *Esthetic Translucent (ET)* or *Esthetic Enamel (EE)* from the incisal edge to about approximately 1/3 of the coronal length as a thin layer.

**Anterior Cases**  
*CLEARFIL MAJESTY* Esthetic  
is recommended for direct anterior composite restorations.
