CLEARFIL DC CORE PLUS is a dual-cure, radiopaque two-component core build-up material supplied in a convenient automix delivery system.

CLEARFIL DC CORE PLUS has superior compressive and flexural strength with a filler loading of 74wt%. CLEARFIL DC CORE PLUS cuts like dentin when being prepared, and affords long-term durability.

Core build-ups are faster, easier and stronger than ever when used with our one-step bonding agent: CLEARFIL S3 BOND PLUS, also offering the added benefits of fluoride release.

CLEARFIL DC CORE PLUS provides the dentist with the confidence of durable, lasting restorations.
With a Strong Core... comes the confidence of a Great Restoration.

- Excellent and Desired Physical Properties
- Superior Bond Strength with CLEARFIL S° BOND PLUS
- Flows with Control; No Matrix Band Needed
- Specially Designed Guide Tip for Deep Root Canals
- Long-Term Durability

SIMPLE APPLICATION:
Post cementation and core build-up using CLEARFIL DC CORE PLUS and CLEARFIL S° BOND PLUS

1. Apply CLEARFIL S° BOND PLUS air dry then light-cure
2. Apply CLEARFIL DC CORE PLUS
3. Insert the post and light-cure
4. Build-up core; light and self-cure

RELATED PRODUCTS:
CLEARFIL S° BOND PLUS is a light-cure, self-etching, one-step, fluoride-releasing bonding agent. Based on the same progressive adhesive technologies from the gold standard; CLEARFIL SE BOND you can expect minimal postoperative sensitivity.

A perfect combination with CLEARFIL DC CORE PLUS!
